

I. SCOPE OF SOLICITATION

The South Carolina Department of Motor Vehicles (SCDMV) is seeking a vendor to provide overnight trucking and delivery services for ground shipments and deliveries of supplies, equipment, and other goods to the SCDMV statewide facilities and locations. Items to be shipped consist of title documents, registration/decal forms, license plates, hologram laminate and driver license printers and ribbons. These are accountable and inventoried items that must be handled with utmost security. Due to the nature of the freight, the SCDMV Warehouse/Inventory Department needs to know immediately when items are delivered and signed for. Therefore, the agency seeks a vendor that has the ability to provide real time delivery verification via the web.
